PROFESSIONAL SUMMARY

Analyst at Deloitte specializing in AWS and GCP cloud solutions, cybersecurity (Prisma Cloud), and full-stack development with Python, ReactJS, and Node.js. Passionate about automating secure, scalable infrastructures and driving innovation through cloud-native technologies and agile practices. Demonstrates strong logical thinking, problem-solving abilities, and a commitment to writing high-quality code. Collaborates effectively within teams to deliver impactful solutions. Recognized multiple times for academic excellence and innovative project work.

EXPERIENCE

Analyst [Cyber - Enterprise Security]

Deloitte

Oct 2024 - Present

Bengaluru, Karnataka

Specializing in cloud security ensuring secure and scalable cloud infrastructure solutions. Collaborating with cross-functional teams to provide insights and implement security best practices in cloud environments.

Project

Agent AVTR

Current

- Developed an aesthetic and user-friendly interface for Agent AVTR using ReactJS and Tailwind CSS.
- Integrated real-time data from Athena queries into the interface.
- Configured the load balancer while collaborating with ACM certificate and Route 53 hosted domains. Implemented Cognito authentication for AVTR
- Created and deployed Terraform templates for migration from AWS to GCP.
- Configured VPC, Subnet and Cloud NAT in GCP
- Integrated Qualys API to extract vulnerability data, transformed it into OCSF schema, and ingested the results into BigQuery tables for scalable analysis and reporting.
- Developed and executed SSM runbooks to automate patching of vulnerable Windows instances, enhancing system security and compliance.
- **Client:** Deloitte USI

AVTR (Automating Vulnerability Testing and Remediation)

- An automated tool to detect, remediate, or suppress vulnerabilities based on client requirements. Streamlined cloud security workflows by integrating AWS services and Prisma Cloud, enabling efficient vulnerability management and resolution.
- **Tech team:** Migrated S3 data from Fortress to AVTR. Compared Asset Inventory with AWS Config data. Formalized patterns and columns. Completed OCSF mapping for Asset Inventory and ITSM data. Converted data into Parquet format and stored it in AWS Security Lake. Automated the Parquet conversion process for streamlined data ingestion. Implemented EventBridge rules to trigger Lambda functions upon data availability. Utilized Prisma API for obtaining vulnerability data. Monitored Prisma Cloud vulnerability logs. Performed integration of cloud security modules. Developed serverless solutions to enhance cloud security architectures.

- **UI team:** Created an aesthetic and user-friendly interface for AVTR using ReactJS and Tailwind CSS. Integrated real-time data from Athena queries into the interface. Configured the load balancer while collaborating with ACM certificate and Route 53 hosted domains. Implemented Cognito authentication for AVTR.
- **Client:** Deloitte USI

SKILLS

Languages	Python, Java, JavaScript, Dart (Flutter), TypeScript
Web Technologies	ReactJS, Tailwind CSS, REST API, UI/UX Design
Databases	MySQL, MongoDB, Neo4j
Cloud Security	Prisma Cloud, Qualys
Version Control	Git, GitHub
IaC	Terraform
Tools	Figma, Visual Studio Code, PyCharm, Postman
Cloud Skills	GCP - [VPC, Subnets, Cloud NAT, CloudRun, Cloud Scheduler, Compute Engine, Cloud Storage, BigQuery] AWS - [EC2, Lambda, S3, Glue, Athena, Lake Formation, Route 53, VPC, Subnets, Load Balancer, IAM, ACM, Inspector, Security Hub, Config, Security Lake, CloudTrail, CloudWatch, EventBridge, Bedrock, Agents, Flows, Lex, SageMaker, Cognito]
Soft Skills	Leadership, Communication, Problem Solving

EDUCATION

Bachelor’s Degree in Computer Science, SNS College Of Technology 2020 - 2024
CGPA: 9.37
Awards: All Rounder Performer Award and Leader of Today Award
Achievements: NPTEL Industry 4.0 and Industrial Internet of Things Course Topper (Top 2%) with Elite and Silver Badge, 5 Star Gold rank in HackerRank – Java
Leadership: President of Xenix Association and Regex Club of CSE Department.

Higher Secondary, Mani Higher Secondary School 2019 - 2020
Percentage: 85.8%
Award: Mani Magan Award
Leadership: President of Interact Club.

Secondary, Vimal Jyothi Convent Matriculation Higher Secondary School 2017 - 2018
Percentage: 94%
Award: State III and District I in English Proficiency Test by Bharat Institutions

INTERNSHIPS

Software Developer Intern June 2024 - July 2024
CodeWents Coimbatore, TN

- Developed scalable software solutions using REST API and Python - Flask. Created clear documentation with Sphinx. Managed projects with Jira and maintained code quality with Git and GitHub.
- Tech Stacks: REST API,Python - Flask,Sphinx Documentation, Git & Github

Data Science Intern Feb 2023 - Mar 2023
Lets Grow More Coimbatore, TN

- Implemented data science projects, demonstrating proficiency in various machine learning techniques. Successfully completed an Iris flower classification project, Developed an image-to-pencil sketch transformation model, showcasing expertise in computer vision and deep learning. Conducted stock market prediction analysis, applying time series forecasting methods to predict trends and provide insights.
- Tech stacks : Python

Web Developer Intern

Prime Solutions

Jul 2022 - Aug 2022

Coimbatore, TN

- Worked on front-end development using HTML, CSS, and JavaScript to create dynamic and responsive web pages. Managed database systems using MySQL, ensuring smooth data storage and retrieval.
- Tech Stack: HTML, CSS, JavaScript, MySQL.

Software Developer Intern

Mr. Intelligence Inc

Dec 2021 - Jan 2022

Coimbatore, TN

- Developed and designed user interfaces using the Flutter framework, focusing on creating responsive and visually appealing applications. Gained hands-on experience with Flutter widgets to enhance UI components and improve user experience.
- Tech Stack: Flutter

PROJECTS

Portfolio with ChatBot. Developed a fully functional AI chatbot to answer interview-style and resume-related questions, delivering context-aware responses. Utilized Retrieval-Augmented Generation (RAG) and AWS Bedrock LLMs to enhance response accuracy and relevance. Applied AWS Bedrock Guardrails to filter out specific words and ensure content safety and compliance.

Tech Stack: AWS – Bedrock, Lex, S3, Lambda, Aurora, ReactJS, NodeJS, Tailwind CSS

Trash Classification. Led the development and deployment of an AI-powered trash classification system, achieving a classification accuracy of 95% and reducing incorrect waste disposal by 30%

Tech Stack: HTML, CSS, Flask(Python), Machine Learning(Keras, Tensorflow), Opencv, NumPy ([Github](#))

Driver Drowsiness Detection. Led the development and implementation of a driver drowsiness detection system, achieving a reduction in drowsy driving incidents by 20%

Tech Stack : Python - OpenCV, dlib, NumPy, Machine Learning(Classification, Regression trees) ([Github](#))

Face Recognition Contributed to the development and deployment of a facial recognition solution with Adam Hechtay library featuring 68 landmarks

Tech Stack : Python - Opencv, Numpy, dlib, face recognition, Machine Learning(scikit-learn) ([Github](#))

CERTIFICATIONS

- AWS Certified Machine Learning Speciality - 2025
- AWS Certified Machine Learning Associate - 2025
- AWS Certified Cloud Practitioner - 2025.
- AWS Certified AI Practitioner - 2025.
- Neo4j Certified Professional - 2025
- Terraform Associate by Udemy - 2025.
- Prisma Certified Cloud Security Engineer (PCCSE) - 2024
- Google Cybersecurity - 2024
- HackerRank Python - 2024
- Wipro Java Full Stack - 2024
- NPTEL Industry 4.0 and Industrial Internet of Things Course Topper (Top 2%) with Elite and Silver Badge - 2023
- IBM Enterprise Design Thinking Practitioner.
- Web Development Masterclass by Udemy

PUBLICATIONS

- Co-author of the anthology "Day Dreamer" published in Amazon Link - ([Day Dreamer](#))
- Brain Controlled Car for disabled using Artificial Intelligence published in IJERT..

LANGUAGES

- English, Proficient
- Tamil, Native Speaker
- Can understand Hindi
